

2017 FORTALIS® *Seeing is Believing* Program

PROGRAM OBJECTIVE:

To provide satellite imagery and yield data to Growers who apply FORTALIS® with their preferred soybean fungicide and compare to soybeans not treated with FORTALIS®.

PROGRAM CONDITIONS:

1. Soybean Growers in all states where FORTALIS® is registered for use are eligible.
2. To qualify for the Seeing is Believing program, the grower must apply FORTALIS® with their preferred combination soybean fungicide on a minimum of 40 acres of soybeans and report the yield on 40 acres of FORTALIS® plus fungicide treated soybeans compared to an adjacent area of 40 acres of soybeans that are not treated with FORTALIS®.
3. Grower agrees to work with a Fortalis Regional Manager and Quest Ag Solutions to help identify soybean fields where FORTALIS® + fungicide will be applied and the adjacent field with soybeans that will not be treated with FORTALIS®.
4. Fortalis Regional Manager will collect the GPS coordinates for FORTALIS + fungicide treated field and the GPS coordinates for the adjacent soybean field not treated with FORTALIS® in order to generate the satellite imagery of the treated and untreated soybean fields.
5. Grower agrees to provide Fortalis Regional Manager with the planting date, soybean variety, date of FORTALIS® + fungicide application, and growth stage of soybeans on the day of FORTALIS® + fungicide application.
6. Grower agrees to provide access to yield monitor data to Quest Ag Solutions for yield comparison of FORTALIS® treated vs untreated soybean fields.
7. Plant Impact will provide satellite imagery for the FORTALIS® + fungicide treated soybean field and for the non-FORTALIS® treated soybean field two times during the 2017 season: 1) 40 to 50 days after the FORTALIS® + fungicide application, 2) after soybean harvest when final yield data is available.

2017 FORTALIS® Seeing is Believing applies to all states within the United States where FORTALIS® is registered for use. Plant Impact, Inc. reserves the right to cancel or modify this program at any time without any notice. FORTALIS® and Pi logos are registered trademarks of Plant Impact, Inc.
